### Information on likely routes of exposure

#### **Product Information**

Product is safe for its intended use based on the formulation, testing results, and the long history of safe consumer use.

#### **Inhalation**

Not an expected route of exposure. Inhalation of mist may cause irritation to the respiratory system.

#### **Eye Contact**

Not an expected route of exposure. Expected to be severely irritating or corrosive to eyes based on components present in formulation.

**Skin Contact**

Based on the ingredients present in the formulation, prolonged or repeated skin contact may be irritation, or severely irritating, to the skin. However, testing of tooth whiteners containing 10-22% urea hydrogen peroxide has shown to not cause primary skin irritation to the skin of animals. Irritation may occur to mucous membranes due to the oxidative nature of the hydrogen peroxide present, especially after prolonged or repeated contact.

**Ingestion**

Not expected to be toxic following ingestion. Ingestion may cause irritation to mucous membranes. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.
